Escape Medical PC Extends Cosmetic Surgery Access in Central New York

July 13, 2026

ROME, NY - July 13, 2026 -
Escape Medical PC, a surgeon-owned and operated medical spa located at 8080 Turin Road in Rome, New York, has formally extended its cosmetic surgery and medical aesthetics services to patients in additional communities across Central New York, including Utica, New Hartford, Clinton, Oneida, Vernon, and Verona. The announcement marks a defined expansion of the practice's service area, broadening access to physician-led aesthetic care throughout Oneida County and the surrounding Mohawk Valley region.

The practice, which opened in 2022, is led by Dr. Keneth Hall, MD, FACS, FASMBS, a board-certified cosmetic surgeon and Fellow of the American College of Surgeons and the American Academy of Cosmetic Surgeons. Dr. Keneth Hall also serves as Medical Director of the Hernia, Weight Loss, and Wound Centers at Rome Health, a role he has held since 2019. Escape Medical PC holds QUAD A accreditation, a designation awarded to outpatient healthcare facilities that meet established standards for patient safety and clinical quality.

The expanded service area encompasses communities that have historically had limited access to surgeon-operated aesthetic care within the region.

Patients from Utica, New Hartford, Clinton, Oneida, Vernon, and Verona now have formal access to the full range of procedures performed at the Rome facility.That facility includes an on-site surgical suite and a complete clinical team comprising a nurse practitioner, anesthesiologist, registered nurses, and licensed aestheticians, a staffing model that distinguishes the practice from non-medically directed alternatives operating in the same market.

Procedures available to patients in the newly designated service communities include abdominoplasty, mini abdominoplasty, liposuction, VASER liposuction, Brazilian Butt Lift, mommy makeover, daddy makeover, and radiofrequency microneedling delivered through the VirtueRF platform. Non-surgical offerings also available to the extended service area include IPL photofacial treatments, body contouring, intravenous therapy, platelet-rich plasma hair restoration, and a medically supervised weight loss program. All procedures are performed or directly supervised by Dr. Keneth Hall within the practice's accredited facility.

Dr. Keneth Hall addressed the significance of the expansion for patients throughout the region. "Escape Medical PC was established to bring physician-led surgical and aesthetic care to Central New York in a setting where patients feel genuinely supported from consultation through recovery," Dr. Keneth Hall said. "Formalizing access for patients in communities like Utica, New Hartford, and Clinton is a natural progression of that original mission. The infrastructure is in place, the clinical team is established, and the goal now is ensuring that more residents of this region know that this level of care is available close to home."

The expansion reflects broader trends in the aesthetic medicine field, where demand for accredited, physician-supervised outpatient surgical facilities has grown considerably in recent years. The presence of an on-site surgical suite, combined with QUAD A accreditation, positions Escape Medical PC within a distinct category of outpatient providers in the region. The practice's clinical model places a board-certified surgeon at the center of every treatment plan, a structure that differs from the operational approach common to many non-physician-owned aesthetic businesses in the area.

The announcement follows the practice's continued growth since opening in Rome in 2022, a period during which Escape Medical PC introduced technologies, including the VirtueRF radiofrequency microneedling platform and VASER liposuction, and expanded its surgical combination procedures to include customizable mommy and daddy makeover packages. These developments, combined with the formal designation of an extended service area, represent a significant phase in the practice's development as a regional provider of physician-led aesthetic care.

New patients from the expanded service communities may submit consultation requests through the

practice's scheduling portal at escapemedical.zenoti.com. Financing is available through the practice's partners PatientFi, First Source Federal Credit Union, and Cherry, offering flexible payment options including fixed monthly plans, medical loans, and budget-friendly payment arrangements for qualifying patients. Existing and prospective patients seeking additional information about Escape Medical PC, its clinical team, and its full range of services may visit their website. The practice is located at 8080 Turin Road, Rome, NY 13440, and operates Monday through Friday and on Sundays from 9 a.m. to 5 p.m.

The practice's expansion into formally designated service communities comes as Oneida County's healthcare landscape continues to evolve, with outpatient and elective medical services playing an increasingly prominent role in the regional economy. Escape Medical PC's position as the area's only surgeon-owned medical spa with an accredited on-site surgical suite places it at a distinctive point within that landscape, and the extension of formal service access to communities throughout the county reflects the practice's intent to meet regional demand with consistent clinical standards.

Escape Medical PC is a surgeon-owned and operated medical spa located at 8080 Turin Road, Rome, NY 13440. Founded and led by Dr. Keneth Hall, MD, FACS, FASMBS, the practice provides cosmetic surgery and medical aesthetic treatments in a QUAD A-accredited facility with an on-site surgical suite. The practice serves patients across Central New York, including communities throughout Oneida County and the broader Mohawk Valley region.
